operation & maintenance

*Our services are tailor-made to fit your specific needs –
let us optimize your investments in your telecommunications infrastructure!*

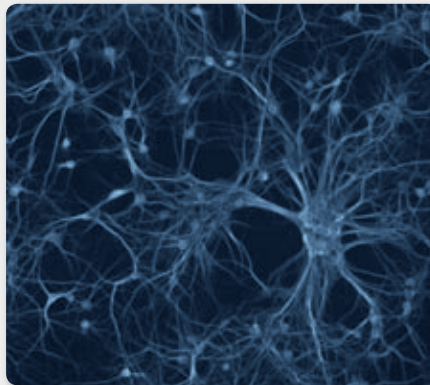

GTC offers a wide variety of telecom services that address both established and private network operators in the area of voice data and mobile networks. We are specialized in providing professional presales and after sales services for international projects in nearly all kinds of telecommunication environments. With the experiences gained from many projects, GTC is proven as a reliable partner to various telecommunication network operators all over the world. The main focus is to optimize technologies and applications according to customer requirements, business processes and business plans.
